

CHILD RIGHTS SITUATION IN PAKISTAN

Millions of children have no access to education, medicine, clean water, They are facing poverty work long hours under hazardous conditions. They suffer targeted attacks on their schools and teachers or languish in institutions, where they endure inhumane conditions and assaults on their dignity. Young and immature, they are often easily exploited. In many cases, they are abused by the very individuals responsible for their care. We are working to aware people about child rights and helping to protect children around the country, so they can grow into adults.
